I've decided to release 3 different versions of **Zen Garden Massacre**, the first iteration, for your convenience.

The largest PDF version, labelled *large font* is suitable for Kindle, e-readers, netbooks and tablets capable of running PDFs natively.

The smallest PDF version, labelled *small font* has been formatted to be easily read from iOS (iPhone) or Android-equipped cellphones.

Lastly, I have also included the text and doc files for OSX and Windows, respectively.

And as this book is CC licensed I do not mind if you pass it along, for free, to your friends. In fact, I would be honored if you did so! But as you'll soon see, there is a cash prize equalling 10% of the net royalties (from units sold until that point) for solving riddles within the book, so be a dear and pay the \$1.99~ it's a great deal, it allows me to continue writing, and it creates a more interesting challenge. So, hit that "buy now" button and donate.
